

New CD release for Rodney Vincent

“Havin a bit of fun”(with some mates)

You can thank Johnny O'Keefe for this album as I have had the privilege of singing his songs

for 25 years and people always ask “ have you got any CD's with some Johnny O'Keefe on them ?” So from a JOK medley , I added some of my all time favourite songs , stirred in some talented musicians , iced it with a few of my special friends and had a bit of fun along the way .

I wish to pay a special tribute to Gene Pitney who sadly passed away while this album was in production (April 2006) . It was my privilege to tour , write and record with such a legend of the industry

, and an honour to call him ‘ friend ’

My first big thank you must go to my good mate and producer Michael Cristian , a very talented musician / performer in his own right , who played a lot of the instruments on this cd and pushed all the right buttons to make it sound great . Michael shows his enormous talent with a vocal collaboration with me on one of my favourite songs “ I go to pieces” .

To my special guests and mates , George Harvey from the Four Kinsmen , just wonderful to get the chance to do a song with you , Wilbur Wilde , simply the best , what more can I say , just listening to that sax solo , says it all , thank you to Lisa Edwards for her wonderful harmony vocals , Donna Fisk , a treasured friend with whom I love to work , and David Briggs of Little River Band fame , what a guitar player , when only the best will do .

Last but not least thank you to the people who buy the CD's , I couldn't do what I love to do without you. I hope you have as much fun listening to this CD as I had making it , just getting together and havin a bit of fun with some mates.
